BN BRUSH

Information

BN BRUSH is a total manufacturing service provider of professional hair brush, from finished products to parts of brushes such as barrel, implanted rubber pad and bristle. We are a developer who always develops new products to make products beyond existing ones, and we are a manufacturer who directly produces products including OEM. Built on our long experience in this field, the highest quality and productivity increase customer satisfaction.

<Main Item>

Thermal Brushes

- We developed the inside structure of cap and handle newly. This structure is used to hold both ends of the bristle firmly. It does not move from the inside and makes no sound. It is a very stable structure.
- It is the first development so we have a patent.
- Various designs of handles & Use Heat Resistant Nylon
- Ceramic is coated on aluminum to improve the thermal conductivity remarkably and it boasts a processing time twice.

Flexible Vent Brushes

- Original developer of this structure vent brush.
- Holds USA, European, Chinese and Korean patents
- Flexible curved vent brush is ideal solution for hair that enables hair style in a short time.
- It is a thoughtful design innovation product for hair to follow the contours of the head with our ergonomic design moving vent flexible brushes.
- It helps to massage scalp during brushing and stimulate blood flow to the scalp, which can create shiny, healthy hair and improve hair growth.
