JT cosmetic

Information

JT cosmetic is a hydrogel manufacturing company founded in 2006, producing hydrogel eye patches, face masks and cleansing soaps. We specialize in private label production and are the biggest hydrogel eye patch manufacturer in the world, producing more than 15,000,000EA per year. At JT we do our own research and as a result we own 9 patents from countries including USA and Republic of Korea, as well as certificates for GMP, Quality and Environmental Management Systems. Our products are produced according to EU compliance standards and contain ingredients of highest quality. JT cosmetic strictly follows all rules and regulations of countries we export to.

We also have our own brand 'misoli' represented in 6SKU, all with CPNP registration.
