Life + Beauty + Creation"

For a better life for each customer, METIS J will do its best and creates beauty that the world pays attention to with innovative R&D and good raw materials.

Metis cell.

Contains 20% of human stem cell culture medium

It is a product with about 130 kinds of physiologically active ingredients in high concentration, which help skin regeneration, suppress skin aging, and are excellent in skin elasticity and wrinkle management.

It strengthens skin barriers, prevents skin damage to help prevent pigmentation, and improves spots and blemishes.

Low-temperature nano-liposome

Particles 1/100 of the size of pores reach deep into the skin and quickly relieve skin troubles with excellent collagen synthesis even at room temperature.
