N-FINDERS

Information

N-FINDERS is a regenerative medicine company based in South Korea with official distributors in several countries all over the world. N-FINDERS aims to contribute to a better medical culture through the development of high-quality products based on scientific research. To date, N-FINDERS has launched its own series of premium PDO threads (Re, N-COG, N-Scaffold, N-Fix, N-Flip), and other innovative products for the aesthetic regenerative medicine market. N-FINDERS provides more than just high-quality products, but also training and education for aesthetic procedures. Through its commitment to innovation, N-FINDERS is consistently proving itself as a leader in the cosmetic and aesthetic market.
