

Wannabe Cosmetic co., Ltd.

Information

ORJENA Cosmetics is a beauty brand that offers a variety of natural functional cosmetics under the slogan "ORJENA SUPPORT YOUR DAILY LIFE". The brand name ORJENA means 'perfect me' in Korean and it tries to become a part of your simple yet beautiful, small but perfect life.

To get rid of the stereotype that expensive cosmetics are always good and affordable ones are bad, we launched the ORJENA brand. Through launching the ORJENA brand, we aimed to boldly minimize advertising costs and cut marketing and unnecessary package material expenses, but at the same time enrich the contents of the product itself so that our customers can easily afford it without burdens.

In the meantime, we have improved the quality of the products by using new and patent special raw materials with a proven effect and removed possibly irritant or allergic substances. With the know-how from cosmetics manufacturers, domestic and overseas cosmetic brand companies, and experiences in the cosmetics business, we have further upgraded the quality that has been recognized by overseas customers. We do still try our best to introduce better quality products for both domestic and overseas customers.

We believe that the real beauty comes from normality of your daily life, not from excessive speciality.

We hope that the value of mediocrity that ORJENA pursues helps you to achieve your own beauty and inner peace during such harsh days due to the pandemic. Thank you!
